		Allowing web content to open a program can be useful, but it can potentially harm your computer. Do not allow it unless you trust the source of the content. What's the risk?	

8. Please un-check the box "Always ask before opening this type of address", and click the "Allow" button.

9. Please double click to open the same or another document, and it should open up in your PaperVision Document Viewer, which looks like the screenshot below.
